

# AMIENS, STILL BEYOND HUN GRASP. IMPORTANT TO ALLIES' SUPPLIES

View of Amiens, its famous cathedral in the background.

Though General Foch has said the capture of Amiens would not mean a decisive victory for the foe, the town is of great importance to the allies for its railroad connections and as a means of bringing forward supplies. There is every confidence that allied arms will foil all of the foe's desperate efforts to seize the city. The beautiful and ancient Amiens cathedral would tempt the Hun to his greatest depredations.

DIG THROUGH, YOU OLD CODGER, of way, but it would be just as well. Once more the courts have declared for him to continue his dodging exercise that the pedestrian has the right. —Philadelphia Telegraph.

## DON'T Slow Up Advertising NOW!

Never has there been a time when the public has looked more keenly for MERCHANDISING NEWS than now.

Never has there been a time more auspicious for the enterprising tradesman to secure HIS FULL SHARE OF TRADE than now.

People must continue to eat, to wear and to use.

The tendency is to cut out luxuries, and luxuries are only a relatively small proportion of your business. For every luxury cut out you have a chance to increase your movement of staples.

How short-sighted is the policy of reducing advertising expenses to "save money." You will only lose trade. You will only lose prestige.

Advertise to increase sales and make more money; don't cut it out to save money.

Study your advertising as you never did before—do it wisely and well.

Be prosperous and let the people know that you are prosperous.

Success was NEVER achieved by stopping advertising or by wearing old clothes and talking pessimism.

## U. P. DINING CAR AND HOTEL WORKERS MAKE RECORD

The general office of the manager of the Union Pacific system, dining car and hotel department, including accounting force, has made a 100 per cent record in the third Liberty loan drive, the entire 33 employees of the general office having subscribed for bonds.

F. E. Lewis also reports that the general office of Superintendent Gentsch of the Oregon Short Line division of the dining car and hotel department, is likewise 100 per cent in this office including the Ogden store room organization, having 18 employees.

The dining car and hotel department laundry of 40 employees is already over 70 per cent to date in matter of subscriptions and still subscribing.

Other offices, employees of hotels, boarding camps and of dining cars are responding loyally and subscriptions are coming in fast, the record for the third Liberty loan far exceeding subscriptions to the first and second loans.

## APPEAL FILED BY SOLICITOR MOHN

J. T. Mohn, the solicitor for picture enlargements who was fined \$25 in the municipal court yesterday morning on a charge of soliciting without a license, has filed an appeal to the district court and put up a cash bond of \$50. Mohn retained an attorney from Salt Lake to represent him in the appeal. He claims that the arrest and conviction were invalid, as they were made by virtue of section 481 of the city ordinances which he claims is in conflict with the federal statute known as the interstate commerce act.

The city attorney and Judge George S. Barker both believe the ordinance is valid and that the fine will be sustained by the higher court. They allege that the ordinance is within the police power of the city to regulate its commerce within its own limits.

## WARRANT IS ISSUED AGAINST A CAFE

That the city officials intend to enforce the new booth ordinance and compel all restaurants to leave an open view of the interior of their dining rooms has been evidenced by action taken a few days ago when the city commission voted to deny the application for license to some of the restaurants that had not complied with the new law.

As further evidence of intention to enforce the law, a warrant was issued from the municipal court this morning against the Alhambra cafe charging that it is operating without a license and retaining booths.

The city officials are beginning a sanitary campaign. They intend to keep the eating and drinking places of the city both decent and sanitary. The order is going forth from the office of the sanitary inspector, which will be backed by the police department, that all dishes and silverware in use must be thoroughly sterilized.

## FIRST PHOTO FROM GERMAN DRIVE

Many prisoners were taken by the British when the German drive, now on, first started. The prisoners were troops who had advanced too fast, got ahead of the main body, and been trapped in British counter-attacks. Here you see a detachment of them tramping along the road in central France, under guard of British soldiers.
